

I am an over the road truck driver and enjoy being able to listen to quality music and news at any given time of the day or night that I am performing my duties. I subscribed to XM Radio for these reasons. Since I have been a subscriber, they have continually improved service and programming. I now can listen to my XM Radio before I get to a large city, know what the forecast and traffic info is and be able to plan my route around or thru that city. Not only does XM provide this service, but they have the best music programming I have heard in years. Before I purchased XM, I was usually listening to CD's or books on tape. I hardly ever listened to "local" programming as I was always having to change channels. I pay for my monthly service and am quite offended that someone should be able to tell me that I can no longer receive the programming that I am currently receiving from an industry leader. PLEASE, reject the NAB petition 04-160.
